VALUABLE REAL ESTATE AT AUCTION.

NOTICE IS HEREBY GIVEN, that the undersigned will sell at auction (unless previously sold at private sale) on Saturday, the first day of November next, at ten o'clock A. M., at the American House in the city of Milwaukee, the following tract of land, viz:—The east half of the north east quarter of section seven, town seven, north of range sixteen east; containing eighty acres. And the north west quarter of the south east quarter of section ten, town seven, north of range sixteen east; containing forty acres.

This land lies in the extreme part of Jefferson County, about thirty-five miles from Milwaukee, five from the village of Summit, three from Oconomowoc, and 3 or 4 from the plank road; in a rich and truly beautiful farming country. The first named tract is one of the most beautiful eighty's in the State, lying high and dry; it is well timbered, has 27 acres neatly cleared and fenced, a small block house, and is bounded on the south end by the Oconomowoc River. The other tract is partly dry marsh, and partly timbered land, with about eight acres cleared, and has on it a small log house, and an excellent Saw Mill, with cast iron gearing, all nearly new, which cost $1,600. This mill is erected upon the Oconomowoc River, has plenty of water all the year, and the same dammed ample to drive a good Flouring Mill in addition, which is greatly needed in that section.

These two tracts lie upon opposite sides of the Oconomowoc River, from one-fourth to one-half a mile apart, and to any one wishing a neat farm and a mill property near, this sale affords a rare chance. These two tracts will be sold either separate or together. Sale POSITIVE, SO STAND [illegible] and terms made known at the time of sale. Persons disposed to purchase are especially requested to call and examine the property, and may bargain with Messrs. Spence, upon the premises, or with the undersigned at their office in the city of Milwaukee.

N. B. Title perfect and free from all incumbrance.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 50 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, [illegible] the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert E. L[illegible] of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after my eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I deny that any person ever saw or [illegible] such a machine as mine until I invented the same [illegible] operated in the month of August, 1848 [illegible] machine [illegible] fore this could do so much work, and do it as well as mine.

In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at any Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

A FEW WORDS TO BUSINESS MEN.

The Merchants and Business men of our City and State rarely take an active part in elections. Since the Presidential contest of 1848 we can recall but one instance in which, as a class, they have manifested much interest, or made any great effort, in our Municipal or State contests. This exception to their customary indifference, or inaction, occurred at the Charter Election last Spring. In that contest, as a general rule, they gave their zealous support to the People's Ticket, and it is not too much to say that their efforts, influence and presence at the Polls carried the day.

What was done last Spring can be done again. Our Merchants and Business men can, if they will, wield a formidable influence. Not only by their counsel, but by their example, they can win many votes for the Whig State Ticket and for the Platform on which that ticket is presented to the People. Is the game worth the effort? This is the question for them to consider. They cannot be insensible to the fact that the character and credit of our State have suffered deeply from the peculiar legislation of the last two years. They must know that Wisconsin no longer enjoys a good name at the East. And they must feel that, as well for their own as for the State's sake, a change is most desirable.

The control of public affairs in this State, ever since its admission into the Union, has been in the hands of the so-called "democratic" party.—Whatever of credit belongs to the legislation of the last three years is justly theirs, whatever of censure, is theirs also. Let our Merchants and Business men strike the balance and say, whether *profit or loss* preponderates. Have our democratic State Officers and Legislators been faithful trustees? Have the interests of the State prospered in their keeping? Has its credit been preserved, its good name kept free from spot or blemish? If *all* these queries must be answered in the *negative*; if the interests of our State have been trifled with, its growth and prosperity checked, its fair fame tarnished, by the ill-advised, inconsiderate and vacillating legislation of the past three years, let those be held responsible who have abused the trust confided to their hands.

Our MERCHANTS and BUSINESS-MEN are among the chief sufferers by the vicious and variable legislation of the "Locofoco democracy;" and they ought to be the chief workers in bringing about a *radical Reform*. A golden opportunity presents itself at the coming Election. A hearty, united and intelligent effort on their part will do much to redeem the State from the hands of the Philistines. We call upon them to put forth *all their energies* in this good work. We invoke, not their "aid and countenance" only, but their active, indefatigable exertion, *from now till the close of the polls* on Election day. We urge them, as they would advance their own interests, as they would promote the welfare of the State, as they would retrieve its character and renovate its credit, to give their zealous and united support to the Whig ticket and platform, and by their practice as well as precept induce their friends, customers and neighbors to DO LIKEWISE!

WHY DON'T HE ANSWER?

More than a fortnight ago Mr. UPHAM pledged himself to come out openly and define his position on the Bank question. More than a fortnight ago, Mr. E. W. EDGERTON, a prominent and influential Democrat of Summit, addressed a respectful letter of inquiry to the Don, urging him to make public his views on the Bank question.—We are within less than a fortnight of an all-important election, and the Don still keeps "Mum." He will neither speak, nor even show his hand,—He allows the Madison *Democrat*, the official paper of his State Party, to claim him openly as *opposed to all Banks*. He seeks, at the same time, to produce the impression, to induce the belief with Bankers that he is *in favor of Banks*. But when, in consequence of these conflicting statements, Democrats of high standing who desire to know *certainly* how he stands, address a plain inquiry to him, he dodges behind a tree and remains *silent*!

Can there be any other inference from this conduct than that the Don is still, what he was in 1846, *a sworn and uncompromising enemy to all Banks and Bank paper*? REMEMBER! Electors of Wisconsin, that Mr. UPHAM was one of the warmest supporters of the *old Constitution*; that, in the Convention which framed it, he voted *to prohibit forever* ALL BANKS or BANKING *in this State*: that his colleagues on the State Ticket, BEALL, JANSSEN and ESTABROOK, *still stand upon the Anti-Bank Platform*, and that the Don himself, in the language of the Madison *Democrat*, stands on the same ground! Can you be so forgetful of your own interests, will you be so faithless to your own principles, as now, when the BANK question is *the* issue over all others before the people, to give your suffrages to the ANTI-BANK Candidates?

NEW YORK WHIG NOMINATIONS.—The Whig Convention for the city and County of N. Y. have made the following nominations:

For Recorder—F. A. Talmadge.
" Register—Cornelius V. Anderson.
" Surrogate—A. W. Bradford.
" Gov. Alms House—Simeon Draper.
" Com'r Streets and Lamps, Jacob L. Dodge.

"OUT OF THEIR OWN MOUTHS," &c.

Mr. Farwell made his advent into Milwaukee as a dealer in stoves and hardware, and we believe followed the same business up to the time of his leaving Milwaukee. The attempt of the *Sentinel* to show that Mr. F. is a *mechanic*, betrays to that numerous class of our citizens, the hypocritical and base motives of our opponents. The very fact of *urging this falsehood*, shows that the leaders of the whig party look upon the operatives of our State as mere tools, which they are anxious to make use of at the coming election.—*Watertown Register.*

We accept the test of sincerity and right motives here proffered by the *Watertown Register*.—Let the public at large, and the MECHANICS in particular, judge as between ourselves and the *Register*, which deals in fact and which in "falsehood:" which stands up fairly and honestly for the *rights* and interests of our Mechanics, and which looks upon them as "mere tools," only fit to be used at elections.

The *Register*, speaking upon the hint of the Madison *Argus*, Milwaukee *Commercial*, &c., sneers at Mr. FARWELL's claims to consideration as a "Mechanic," and while *falsely* representing Mr. UPHAM as a "journeyman printer," and seeking to make capital for him on this fictitious ground, denies that Mr. FARWELL is or ever was a "Mechanic," and strives to create prejudice against him *because he has been successful in business*. In answer to the *Register's* allegations we are content to appeal to those of our citizens, who know LEONARD J. FARWELL when he first came to this city, and who are personally *cognizant of the fact* that for *two years after he came here in 1839, he worked daily at his trade*. The *Register, Argus*, &c., not only seek to deny this fact, and to falsify Mr. FARWELL's personal history, but they are striving, at the same time, to pass off Mr. UPHAM as a Mechanic! In the appropriate language of the *Register* "the very fact of urging such a falsehood shows that the Hunker Leaders and Presses look upon the Mechanics of our State as mere tools," whom they would, *if they could*, use at the coming election and then throw aside.

Free Banks.

Shall we not have a banking system to Wisconsin, which shall enable our people to dispense with this Eastern trash, and have a well secured currency of their own? The signs of the times indicate an answer to the affirmative, we are glad to be able to say.—*Mil. Sen.*

Trash is it, Mr. *Sentinel* Well, we are very glad that you are coming to your senses—we begin to have some hopes of you. But will you tell us by what kind of reasoning you come to the conclusion that Western trash "is better than" Eastern trash?" Can we have a better banking system than that of *New York*?—*Sauk Co. Dem.*

We don't come to any such conclusion, very good anti-Bank *Democrat*. We should be satisfied if we can get as good a system as that of New York, and prefer a better one, if it can be had. As that, however, secures the billholders against loss, it might do. But the reason why we prefer to have Banks of our own is just this. The fact is pretty generally known that the Comptroller of New York will redeem the bills of the above banks, dollar for dollar, from the sale of the stocks deposited by them as security for their issues, but they are located *too far off*.

The holders of their bills in Wisconsin, cannot, in most cases, afford to wait the movements of the Comptroller, and are obliged to part with them to a broker here who perhaps buys for a Buffalo broker, who sells to a Wall St. broker, who sends the bills to the Comptroller; and each of these brokers expects to make his profit in the exchange.

Let us have well secured Banks in this state, among ourselves, and we can avoid all of this and more, we can get rid of a flood of bank bills of institutions for whose solvency the billholder has no security at all.

What we Whigs want is a SAFE, SOUND, WELL SECURED BANKING SYSTEM, and, if it please the people, we will have such a system.

A Whig Castle Overturned.

The Watertown Register thus conclusively disposes of the pretensions set up by the Coalition Press for the support of Mr. Farwell, as an *alleged mechanic*. We have known Mr. Farwell for some years, as an honorable and successful merchant.—We have long been personal friends, and from his character we feel that he must despise those truckle rs in the Coalition press, who are trying to obtain votes, by representing him *most untruthfully as a mechanic*.—*Wisconsin* of yesterday.

Such is the *Wisconsin's* endorsement of the Watertown *Register's* cool fabrication! The *Register*, we are willing to believe, knew no better. But what shall be said for the *Wisconsin*? That paper knew, or had the means of knowing, that Mr. FARWELL is a practical MECHANIC, and worked at his trade for two years after coming to this city. And yet it does not hesitate to endorse the *Register's* fiction. Just notice the twists and turns of these "Artful Dodgers" of the Hunker Press. First, they sneer at Mr. FARWELL, as a Mechanic, and insolently remind us that he belongs to a class who ought not to "aspire" to the office of Governor. Then, finding that this won't work, they turn a short corner and impudently deny that he is a Mechanic at all! What "dodge" will they try next?

The State University.

We rejoice to learn from Madison that the Fall and Winter Term of our State University opens well. There are already *forty* Students in attendance with constant additions to the number. The new Building is completed. The rooms for study and lodging are commodious, and heated by furnaces in the basement. The charges for Tuition and Room rent, including the heating of the rooms, are at the very low rate of $15 per term of twenty weeks. Board for those students who have rooms in the University Building can be obtained for $1,25 per week, payable in advance, or $1,50 payable at the end of the term. Those students who do not have rooms in the building, can obtain board and lodging at $2,00 per week. The force is complete for the purposes of instruction, and under the intelligent and energetic supervision of Chancellor LATHROP the career of the Institution will be onward and upward.

GRANT CO.—The "Democracy" of Grant Co. met last week and nominated JOEL C. SQUIRES for Senator, and other candidates for the Whigs to beat. They passed a set of resolutions glorifying "democracy" as they understand it, and especially sweet upon Jefferson, "the brightest star in the galaxy of American literature," and the "illustrious hero of Jackson," but said never a word about Silas Wright!!

The omission was supplied doubtless by a long essay on the "purity, justice, expediency, and sublimity" of Loco Foco principles in general.

SNUBBING THE COMMERCIAL.—The Oshkosh *Democrat* looks down upon the *Commercial* and some presses of its kidney, in this magnificent style:

We have long since ceased to notice the strictures of such papers as the *Lake Journal, Commercial Advertiser, Wisconsin Democrat*, and that ilk, deeming that *every gentleman will necessarily be degraded by a contact with them*; but we are sorry to be deemed deserving the strictures of the *Racine Advocate, Kenosha Telegraph*, &c., as we hope to earn a reputable position among respectable people.

This is treating the gray hairs of our Antediluvian neighbor with decided disrespect. Those "*goats* of papers" up North are spiteful, if they are small.

LUDICROUS.—To hear an individual of aristocratic blood, a "scion of a royal house," educated at an expense of "$6000 to the Government" prate about the rights of mechanics, and endeavor to metamorphose an individual who has attained to wealth by a series of speculations and successful mercantile operations into a "humble mechanic," fit for the support of that class of our people as Governor.—*Watertown Register.*

MELANCHOLY.—To see a paper, claiming to be respectable and setting up as a teacher of democracy, stoop to such mere demagogueism, and that too borrowed, at second hand, from the "lower depths" of the *Commercial*.

AN IMMENSE DRY GOODS BUSINESS.—A New York writer says that the aggregate sales of Messrs. A. T. Stewart & Co., are about *seven millions of dollars* per annum, two-thirds or over *two millions of dollars*, in the retail department. This, we believe, is the largest retail business done by any single house in the world—while their aggregate sales are only second to the famous Morrisons of London.

For the Daily Sentinel.

Who ought to be Elected?

Messrs. Editors:

As it is approaching election, would it not be a good plan to look at the *qualifications* of the candidates impartially, without reference to party.—The first question asked by most men in regard to a candidate is—"Is he a whig?" "Is he a democrat?" Instead of this it should be—"Is he an honest man?—"the noblest work of God."—Has he integrity sufficient to be intrusted with a high office? or will he basely yield to party ambition and party *gold*, and sell his principles for the favor of a few unprincipled men? If he has integrity, has he intelligence and capability of great enterprise? Has he *energy* to continue doing his duty in spite of his enemies? Will he disregard their sneers and bribes—their temptations and their scorn—and, keeping his eye fixed on the guiding star of *duty*, continue nobly in the right path? *Such* men and such only are the right ones for any office of trust among their fellow citizens. Will he, as candidate, if elected, strive to gain the esteem of the "rich few," by advocating measures which give them the advantage over the laboring class of men? Will he uphold institutions that give to the wealthy power to grind and crush down the poor man? Will he oppose a liberal and just system of banking?—Will he discourage all internal improvements? or will he advocate measures for the common good of the State? Will he consult the interests of the "poor men," who are the builders and life of our Union, especially in the Western States? Will he sustain a system of *good* banks? (not shin plasters like those that have sprung up and died within three months after their birth.) Will he use his influence to promote internal improvements? To render rivers navigable, and to build rail-roads and plank-roads. If he will do the latter, let him be elected, whig or democrat. If not, he is not worthy of election for any office.

I do not pretend to make these comparisons between any men—the public know the candidates. Let them ask themselves these questions and answer them impartially, free from party prejudice. Let every voter ponder on them before he comes to the polls, and *then* let him vote for the men who will do this. In such a way could we bring about the prosperity and advancement of our State—and in no other way. X. Y. Z.

For the Daily Sentinel.

APPEAL TO THE CHARITABLE.

Messrs. Editors:

It will be seen by the report of the Secretary of the Ladies' Benevolent Society, that their funds are nearly exhausted, and that they are again compelled to call upon the citizens of Milwaukee for means to enable them to dispense their usual charities.

The falling leaves and the cold and piercing blasts of wintry wind, admonish us that the season of suffering is at hand—the season which none know how to dread but those who have been crushed to the earth by poverty and sickness,—those who live in hovels which are but little protection against the severities of winter.

If my pen could but describe the feelings inspired by frequent visits to the abodes of poverty and scenes of suffering, I think it were enough to move a heart of stone to give, and give freely, of the bounties which a kind Providence has showered upon him.

I would appeal to the charitable to give, as they ever do, willingly of their abundance. I would ask those that mourn—

"Would'st thou from sorrow find relief?"

Then,

"Rouse to a work of high and holy love,
And thou an Angel's happiness shalt know."

I appeal to him who adds dollar to dollar and house to house, in the vain hope of increasing his happiness thereby, and repeat to him the old, yet ever new saying, "it is more blessed to give than to receive." I appeal to *all* to "*lend to the Lord*" what they have received from him. A VISITOR.

[We are informed that our citizens will be waited upon in a few days by persons deputed by the Society, for aid in their benevolent enterprise.]

EXPLANATION.—We understand that some of the democracy of Kenosha are very indignant with our friend Mr. WELLS, of Speed's Office, for having, as they suppose, entitled them "bolting democrats" in a despatch.

The fact is that on the day the last Convention was held, Mr. WELLS informed us that a certain nomination had been made by that body; which item we forthwith put into our own language, calling the members of that Convention "bolting democrats." Mr. WELLS had nothing to do with the matter. If our Kenosha friends will only settle among themselves who is the "genuine old Dr. Townsend," we will do the fair thing for them, and publish it.

THE NATIONAL DEMOCRATIC CONVENTION.—Some time since, somebody published, through the columns of that *reliable* sheet, the New York *Herald*, a series of humorous letters—partly spurious and partly authentic—written by certain "*old fogies*," upon the subject of the next National Democratic Convention.—*Madison Democrat.*

The "old fogy" from this State was Mr. J. A. EASTMAN, Senator from Fond du Lac, who kindly furnished a list of "reliable democrats" to Mr. GREEN, the "man with the Carpet Bag." It is rather hard that he should be laughed at for his pains by his own political friends.

A BRITISH CLIPPER.—The *Chrysolite*, a clipper ship, built at Aberdeen by the Messrs. Hall, for the Liverpool and China trade, has just made the voyage from Liverpool to Anjeer in 80 days.—This is the quickest voyage on record. The *Oriental* made the same passage out in 89 days, and that was without precedent; but, for the present, the *Chrysolite* has the palm. This ship was built expressly to contest the voyage with the *Oriental*, and no expense was spared.

ASSEMBLY NOMINATION.—It will be seen from the proceedings of the democratic caucus, which have been handed to us for publication, that Mr. JAMES RIORDAN is the "regular" candidate for the Assembly in the Franklin and Oak Creek District. Mr. RIORDAN is represented to us as a strong friend of Banks, and utterly opposed to Land Limitation.

☞ This district is democratic, and has been for a long time—but the party *has been ridden to death by its would-be great ones*.—*Fox River Times.*

What the *Times* says of its own district, is strikingly true of the whole State. We should think it about time that the party rid itself of such an uncomfortable incubus.

"SPECIMEN BRICKS."—The two following returns from Counties in the Reserve, sufficiently explain the nature and cause of the result in Ohio:

ASHTABULA CO. OFFICIAL.—Wood 735; Vinton 1369; Lewis 1727.

GEAUGA COUNTY—OFFICIAL.—Wood, 700; Vinton, 726; Lewis, 1166.

Wood is the democratic, VINTON the whig, and LEWIS, the Free-Soil candidate for Governor.

NOTICE EXTRAORDINARY.—"Marquis de La Fayette Briggs" gives notice in the Potosi *Republican* that he won't pay any debts of the Marchioness—Mary Dudley Briggs'—contracting from the 12th of September, since that lady has departed from his couch of eider down, and the sumptuous fare of the family mansion—or in other words "left his bed and board."

THE LAW OF LIBEL.—The publishers of the Utica *Observer*, have been mulcted to the amount of $82 for cutting a paragraph from the *Journal of Commerce*, in reference to the robbery of the Oswego Bank. This result carries with it costs to the amount of $28, and the Observer calculates the publication of the offensive paragraph to have cost it $100 in all.

QUICK PASSAGE.—The United States mail steamship *Golden Gate*, made her trip from New York to Bahia in 19 days, the shortest trip ever made between those ports.

CHICAGO AND GALENA RAILROAD.—This railroad has been opened to Marengo, 68 miles from Chicago. Belvidere, 12 miles further, will be the next Station.

COMPLIMENTARY CONCERT TO DR. FESSEL.

The Complimentary Concert, tendered to Dr. FESSEL by a number of our fellow-citizens, as some slight return for his frequent contributions to the public enjoyment, and his unwearied efforts to exalt the standard of musical taste, comes off at the Hall of the Musical Society in Dickerman's Block *this* (Wednesday) evening. The Programme sparkles with gems, both for vocal and instrumental music, and the best talent of our city will be enlisted in the effort to make the Concert eminently successful. It presents, therefore, intrinsic claims to a full house. But added to these are the claims of Dr. FESSEL himself, not only as an accomplished musician, who has freely given his time and talents to the public entertainment, but as one expatriated for opinion's sake, who, compelled to flee for his life and to abandon country, fortune and friends, has sought a new home and the liberty of speech and of opinion, in that "city of refuge" for the oppressed of every land, our own free Republic.—Our citizens cannot be insensible to such an appeal. They will, we are persuaded, throng the Concert Room this evening, as well to testify their grateful recognition of Dr. FESSEL's musical talents and services, as to express their heartfelt sympathy in those liberal principles which cost him a home and competence in the Old World, but which will not, we trust, debar him from gaining friends and fortune in the new.

P. S. It will be seen by a notice in our advertising columns that this Concert is necessarily deferred till next week.

U. S. DISTRICT COURT.—United States *vs.* Armstrong; *trespass for cutting timber.* The Jury took this case on Saturday evening, and returned on Sunday morning without having agreed, and were discharged.

Daniel Whitney *vs.* Peter Brunette. An argument on demurrer in this case, very ably contested by W. P. Lynde, Esq. for plaintiff, and E. G. Ryan, Esq., for defendant, occupied nearly the whole of Monday.

United States *vs.* Elisha Morrow; *trespass for cutting timber.* Lakin, District Attorney, for plaintiff, E. G. Ryan, Esq., for defendant. The Court was engaged with this case yesterday.

OIL PAINTINGS.—Another visit to Messrs. SEA & SHERMAN's Auction Room has induced us again to invite our citizens to call and examine the fine Paintings which are now on exhibition there, and which will be offered to the public on Friday.—Many of them are very superior, and much better in style and execution than any large lot which has yet been offered in this market. Among them are several landscapes and storm scenes which would ornament any drawing-room. Besides the large paintings there is an old portrait of MARY, the mother of WASHINGTON, admirably executed, and showing clearly the familiar features which she transmitted to her illustrious son. There is also a capital English painting of one of those homely farm scenes, which the uninitiated are disposed sometimes to sneer at, but which have been dignified by the labors of a MORLAND. Go and see them, by all means.

FURNITURE SALE.—J. HOOD sells to-morrow the balance of the large stock of furniture of A. D. SEAMAN, made under his supervision, and well worth the attention of those who wish to purchase for sale or use. The opportunity is one not to be neglected, and if the weather be favorable, there will doubtless be a large number in attendance.

CITY OF GLASGOW.—See the advertisement of the screw steamer *City of Glasgow*, which leaves New York for Scotland in December. She has already made numerous passages, and proved herself a fast and safe vessel, with first rate accommodations.

DISTINGUISHED VISITORS.—Archbishop PURCELL, of Cincinnati, and Bishop O'CONNOR of Pittsburg, were in our city yesterday on a brief visit to Bishop HENNI.

EXECUTION AT UTICA.—A large meeting of the citizens of Utica, N. Y., was held on the 16th, to take measures to procure, if possible, a commutation of the sentence of Orcutt, lately convicted and under sentence of death for arson, to imprisonment for life.

CANADA RAILROAD.—The Railroad Companies of New York on the Central line, and connecting therewith, have had a meeting, and resolved to aid the construction of the Railroad on the Canada side of Lake Erie, from Niagara toward the west, by liberal subscriptions.

STATE SUPERINTENDENT.—We had always supposed the Doctor (LADD) was a graduate, tho' we never knew of what institution. On the day of the State Convention, however, he gave us *reason* to doubt it. We now should like to know the *facts* in the case.—*Mad. Dem.*

What was the *reason*? Out with it—don't be afraid!

SCHOOL FOR DEAF AND DUMB.—A School for the deaf and dumb has been opened on Blooming Prairie in Walworth Co., at the house of Ebenezer Cheesebro. Particulars may be learned of him, or the editor of the Elk Horn *Star*.

FATHER MATHEW AT THE TOMBS.—Father Mathew visited the Tombs, the New York City Prison, lately, and after addressing the prisoners in a feeling manner, administered the pledge to over 200 men, women, and children.

APPLE CROP.—Capt. MCFADDEN, of Grand Spring, Dane County, has raised this year about five hundred bushels of Apples from which he will realize some $500. This is a very good beginning for a new country.

BALLOON EXCURSION.—Mr. THURSTON, captain of the Clipper Balloon, "Jupiter," proposes to make an excursion, in his aerial craft, into the upper regions on Saturday next, from the port of Chicago.

Prizes At The Great Exhibition.

Five of the *Council Medals* are taken by citizens of the U. S. as follows;

The American Minister At Cork.

Hon. Abbott Lawrence was very cordially received by the Mayor and Corporation of Cork, at his recent visit to that city. In the course of the Mayor's address of welcome, that officer used the following language:

"We invite your Excellency to visit our harbor—that harbor into which, when famine and pestilence had stricken the land, and myriads of our people were dying of starvation, there entered a majestic frigate, deep in the water, though disburdened of her guns—the American ship of war Jamestown—a messenger of peace and mercy, freighted with food for the Irish people.

"We are well aware your Excellency took a prominent part in this noble work; and we avail ourselves of this opportunity to repeat to you, and, through you, to your countrymen, our heartfelt thanks.

A PROPHET AS IS A PROPHET.—The Milwaukee correspondent of the Green Bay *Advocate* writes to that paper as follows:

The Democratic ticket is daily gaining strength, and the confidence of the people in this section is being happily extended towards the nominees. * * * Mr. Farwell is regarded with distrust by all alike, and the Don will walk over the course, distancing all competitors.

That correspondent knows, he does! But there is no telling who is Governor till after election.

HERRING'S SAFES.—We stated in our last the fact that one of Ald. S. C. Herring's "Salamander Safes," (Wilder's Patent,) which was exhibited in the "World's Fair," in London, has received a Prize Medal, as high an award as was made to any one of the multitude of Safes there exhibited from various countries—some of them far larger, more elaborate and costly in their execution than the Salamander.—*New York Tribune.*

Messrs. WILLIAMS & BONNELL, of this city, are the agents for this celebrated safe, and their large sales show the esteem in which it continues to be held.

THE VOTE OF MISSISSIPPI.—The vote of Mississippi, by Congressional districts, in the recent election for members of the State Convention, was as follows:

Districts.		Union.	State Rights.	Un. maj.
1	Complete	9,351	5,569	3,782
2	ex. 1 co.	6,748	5,057	1,691
3		6,250	5,698	1,622
4	ex. 1 co.	5,053	4,986	67
	Total	28,402	21,240	7,162
		21,240		
Vote in State		49,642		

CONFESSION.—The following is a part of one of the resolutions adopted at a Locofoco meeting in Albany:

Resolved, That we regard the distinct difference between the Democratic and Federal or Whig party as *lying* in this: that the former is in favor of the strict construction of the Constitution and of all grants of power, and of the faithful execution of such powers; that it is national and comprehensive in its policy, and economical of public money which is raised by taxes upon labor; and that it aims to secure the abiding confidence of the people by watching over and and ministering to their permanent interests.

Special Minister from Spain.

Washington, Oct. 16.

There is much interest manifested in diplomatic circles relative to the expected arrival of a Special Minister from Spain, to demand satisfaction of the United States Government for the loss to Spain and Cuba from the late invasion of Cuba.

We think the aforesaid "Special Minister" will have a good time of it in getting "satisfaction," unless indeed he takes it out in asking.

State of Wisconsin.

General Orders No. 2. } ADJUTANT GENERAL'S OFFICE, Madison, October 13, 1851.

The commanding officers of each Regiment and separate Batallion of the Wisconsin Militia, are required by the 10th Section of "An act relating to the Militia," Approved March 11, 1851, to make out a separate roll of each company within the bounds of his command.

It is therefore expected that every such commander will attend promptly to the duty required by the act referred to, or suffer the penalty prescribed by law in case of default.

Blank forms will be immediately distributed to aid in the proper discharge of the duty required.

By order of the Commander-in-Chief.
WM. A. BARSTOW,
Adjutant General.

KOSSUTH.—The Mississippi, with fifty-five exiles on board, touched at Smyrna, and on the 16th at Syra, one of the Cyclades. On the arrival of Kossuth in the Dardanelles, the Captain of the Mississippi went on board the Turkish vessel, and placed his ship at the disposal of the exiles, at the same time presenting $15,000 to their leader in the name of the American Government.

After having solemnly promised the Turkish commissionaries to go direct to America, Kossuth wanted to take a Hungarian flag with him into the American vessel; but this was objected by the Turks. When all the refugees were safely on board, Kossuth made a speech, in which Lord Palmerston and the Americans were not forgotten, and soon after the Mississippi started for her voyage.

The Opinione publishes the following letter from Spezzia, dated Sep. 22d:

"The moment it became known that Kossuth was in our roads, on board the Mississippi, the town was illuminated, guns and rockets were fired, and a number of boats decorated with flags, surrounded the American ship, which they saluted with *vivats*. The American Commodore, who was at the baths of Lucca, hastened to Spezzia to congratulate the illustrious guest, whom we probably shall not be permitted to feast here, as the ship is to weigh anchor before the expiration of the quarantine."

The Mississippi arrived at Marseilles on the 28th inst, having M. Kossuth and 57 Hungarians refugees on board. She sailed again immediately, having procured a supply of coal and fresh provisions. None of the passengers landed.

FRANKING.—We are requested to call attention to the fact that the Postmaster is obliged to disregard the franks of members of Congress, on letters mailed in this city, when it is notorious that the person franking has not been in the city for weeks, and is the resident of another state.

The following post-office regulations are referred to:

Sec. 298. The Franking Privilege travels with the person possessing it, and can be exercised in but one place at the same time.

Sec. 299. No postmaster or privileged person can leave his frank behind him upon envelopes to cover his correspondence in his absence.

A penalty of $10 is imposed by law upon each offence, both against the person abusing, and the person knowingly using a fraudulent frank.—*Det. Adv.*

DREADFUL ACCIDENT.—On Saturday of last week, five bears made their appearance in a clearing in which some men were engaged, on the Lake shore, a little this side of George H. Mann's. Three men, Englishmen, Charles Jenkins, Mr. Cowen and another started the next morning to hunt the bears. After going a little distance together they separated. Shortly after that, Cowen saw something in the bushes which he supposed was a bear, and fired. On reaching the spot, he found that he had shot Charles Jenkins through the heart. Mr. Jenkins leaves a family.—*Oshkosh Democrat.*

TOBACCO.—Mr. Robertson, of the Democrat, says he has raised tobacco this season, in St. Paul, of which the seed is now perfectly ripe; although sown later than is proper. We think our soil is as well adapted to the growth of that plant, as any land in the United States. It is well known, that there is not a more profitable crop raised in Connecticut, than the seed leaf tobacco, being the second crop from the Havana seed; which is the kind grown by Mr. Robertson.—*Min. Pioneer.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, October 22, 1851. }

Yesterday was a cold, gusty, dreary day, and there was little doing in the market. Light receipts from the country, and only a moderate business doing in town.

Wheat shows no change.

Barley still low, and not changed from Tuesday's rates. Sales at 37@40c.

SILVER CHANGE.—There is a great scarcity in silver change felt among the business men of this city. And it will be seen that they do not suffer alone. The N. Y. Journal of Commerce of October 14th, says:

Silver change has become very scarce lately. Yesterday shillings and smaller pieces were not to be had in Wall-st. The few brokers who were so fortunate as to have quarters got 4 ₩ cent. premium; cents at par. Since the bank panic very little silver has been brought into the market.

THE TAIL OF THE COMET

Is forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

New York, October 21.

The brig *Helen Jane*, from Truxillo, Honduras, Sept. 25, arrived this morning.

The country remains quiet, though the general feeling was that the difference of opinion as to the future policy of Central America would soon cause hostilities to break out.

A severe shock of an earthquake was felt at Truxillo on the 13th ult., and extended throughout Honduras, without, however, doing any damage.

Trade generally dull.

FROM MEXICO.

Baltimore, Oct. 20.

Our city is crowded with strangers, and the State Fair is open, but not more than half the applications could gain admission.

The papers received by the Southern mail contain full details of the news from Mexico.

The *Rio Bravo* says that Gen. Avola is busily engaged in strengthening the fortifications of Matamoras against the approach of Carvajal, but it looks as fair when Gen. Taylor entered it.

Carvajal has issued a proclamation declaring his intention to confiscate all goods entering the country, except in the three towns that have pronounced against the Government.

Intelligence from Mexico to the 15th says that everything in connection with the Government is in the most utter confusion, and it is almost impossible on Constitutional questions to get a quorum of the *Department* together.

Boston, Oct. 20.

Mr. Webster was in the U. S. Court this morning, apparently in excellent health.

In the Indian rubber case of Goodyear *vs.* Day, a motion is to be made to assign an early day for the trial, and Mr. Webster is engaged as counsel.

During a quarrel last night between John McKenny and John Shaughnessy, aged 18, the latter stabbed the former in the stomach, letting out his entrails.

Louisville, 20th.

Mr. Reed, teller of the Tennessee State Bank, is a defaulter to the amount of $8,000.

Charleston, 20th.

Out of 3340 votes polled, the majority of the co-operationists is 745. There are only four or five counties to be heard from.

The known majority in the Congressional districts is 796, with four small towns wanting.—Rhett and Duncan are certainly the only Secessionists elected.

Dedham, 20th.

Mr. Dexter, a much respected citizen of this place, was run over by the express train in New York yesterday afternoon and was instantly killed.

Calais, Oct. 20th.

The Union Mills at St. Stephen, N. B., were fired yesterday morning by an incendiary, and totally destroyed.

LATER FROM MEXICO.

New Orleans, Oct. 20.

We are in receipt of later dates from Northern Mexico.

On the 16th, Caravajal was within 10 miles of Matamoras with a very large force, including, it is said, about 400 Texan Rangers.

It was fully expected he would attack the city on the following morning, the 27th.

Among the Texans is a company which was discharged from the U. S. army.

The excitement in Northern Mexico is intense, and increasing very rapidly.

South Carolina Election.

Charleston, Oct. 15.

The election passed off, so far as heard from, very quietly, and the returns indicate that the State has been carried by the co-operationists by a large majority. The co-operation majority in the city of Charleston is 1,462.

The steamer Magnolia which arrived at Savannah on Monday from Jacksonville, reports that the trial of the Pampero was progressing at St. Augustine. The stores of the vessel were sold at Jacksonville on Saturday.

New York, Oct. 16.

Dates from Havana to the 8th, have been received. A letter states that in consequence of the urgent representations made by the Spanish Minister at Washington, to the Captain General, the latter was induced to grant quarters to the prisoners sent to Spain, and also, that he may at the solicitation of the British Consul General, liberate those now confined in the Hospital at Havana.

The United States Sloop of War Albany, put in to on the 3d for Pensacola, being short of provisions.

The Sloop Decatur got under weigh on the 6th, for a cruise to the Westward, visiting Porto Rico, and returning.

St. Johns, N. B., Oct. 15.

Authentic intelligence has been received of the loss of fifty British fishing vessels, and the probable destruction of over one hundred lives. The barque Amelia Ann from New York, arrived at Schediac, on the 10th, and the Prince Edward's Island packet on the following day. The latter reports that one hundred and sixty vessels have been wrecked on the coast, and that sixty persons were buried in one grave. The loss of life has been immense. Two ships are reported as lost.

Boston, Oct. 16.

A collision occurred at Pawtucket between two men named Roddy and Pratt, in which the former was killed. The latter surrendered and was held to bail in the sum of $1000, on the charge of manslaughter.

The people were dissatisfied, and had him re-arrested on a charge of murder.

St Johns, N. B., Oct. 15.

Authentic intelligence has been received here of the loss of 50 fishing smacks, and probable loss of 100 lives. An arrival from Prince Edwards Island states that a fleet of 160 vessels, ships, schooners and brigs, was wrecked. Sixty persons were buried in one grave. The loss by the gale has been very great.

☞ The Circuit Court for the County is now in session—His Honor, Judge Hubbell presiding. We understand that there is a large Calendar, and that this Term will be a protracted one. Two boys, Robinson and Ryan, were this morning, sentenced to the State Prison—the first, for two years, and the second for one year—for breaking into, and robbing, a store in this Village, last Spring.—*Madison Democrat.*

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. OF COURSE IT DID, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

AGENT FOR PITTSBURGH GLASS.

Troy Fire Insurance Company

TROY, WALWORTH COUNTY, WIS

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	950
Whole amount of Property insured,	$825,651 00
Whole amount of Cash premium,	5214 37
Whole amount of losses allowed and paid,	361 27
Balance of Cash Premium on hand,	4853 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers, and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stores may be added or changed, out buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1849 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

AGENTS WANTED.

☞ All communications for this Company should be addressed (post paid) to the Secretary, at Troy, Wis.

O. L. STEWART, Agent,
Exchange Block, Milwaukee, Wis.

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bed-stead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their names with Mr. Birchard at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

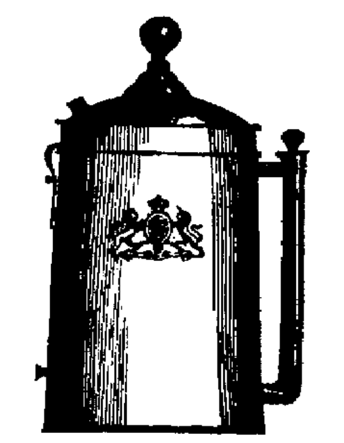
PHILLIPS' UNITED STATES



Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentee for the disposal of PHILLIPS' FIRE ANNIHILATORS in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietory interest in the Patent, will be conducted in connection with a company of operation, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President. Hon. JOHN M. CLAYTON, of Delaware, is Counsel for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines, and of Charges, are as follows:

SIZE OF MACHINE.	PRICE, INCLUDING ONE CHARGE.	PRICE OF EACH SPARE CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	25	2 50
No. 4	30	3 00
No. 5	35	3 50

☞ Freight from New York added to the above prices.

The machines can be made to order of any size, at proportionate prices.

No. 1, (the smallest size,) is valuable for extinguishing fires in chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for houses.

Nos. 3, 4 and 5, are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled, to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machine, there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of continuous power, and will emit, through a hose, a stream of vapor upon a burning building for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time.—These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

THE FIRE ANNIHILATOR is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innoxious to life, and even tends to purify an atmosphere charged with smoke; nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machines constitute the best fire-escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine, inadequate to the extinction of a large fire, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria. The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theaters, Churches, and other public edifices, as well as Steamboats, Shipping, &c., now have them in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On the 13th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location,) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.—When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases, to be paid at the time of subscribing, and seven per cent. interest will be allowed on any time (if any) that said money remains over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premium required for insurance is high; also to theaters, hotels, and large steamers, where many human lives are jeopardized. Every machine will be stamped with the name of the company; and as the company are determined to accommodate the whole public, by supplying machines, of the most durable materials, and chemical charges of the most approved manufacture, at the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe on said patent, as well as every person who may purchase and use such infringements. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city for which they are sold, and they can be used in no other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased.

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article for every house, manufactory, ship, or other place where fire is used or may be introduced, have accepted the above appointments, and are prepared to fulfill their duties to the public to the best of their ability.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. B. Tuttle & Co.

HENDERSONVILLE, Oswego Co., May, 1848.

S. P. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and Weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and, judging from the effect of the former, feel confident that it will effect a perfect cure.
Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. P. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligation to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Hyers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendance. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effect of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.
Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 29, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.
L. P. YANDALL, M. D.
Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.
JAMES M. MOORE, M. D.
Winchester, Ky., Feb. 1, 1848.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1848.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

DISPENSING DEPARTMENT.

THE unlooked-for success which has attended the Dispensing Department of the West Side Drug Store, stimulates the Proprietor to increased efforts to improve that branch of business. Fully conscious of the responsibility which attaches to it, he has procured a choice assortment of select Drugs, Extracts, Chemicals, &c., &c., to be used exclusively in compounding Physicians' Prescriptions and Receipts, hoping with the additional advantages of competent and experienced hands to merit a liberal patronage.

JOY TO THE BED-RIDDEN.

A VALUABLE DISCOVERY
FOR THE
INSTANT CURE OF PAIN.

RADWAY'S
READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pain and curing diseases, that it has frequently raised the diseased and hopeless invalid from a bed of sickness in a few hours. It has cured the worst pains of

RHEUMATISM,	In four hours,
NEURALGIA,	In twenty minutes,
TIC DOLOREUX,	In ten minutes.
TOOTH-ACHE,	In three seconds.
SICK HEAD-ACHE,	In three seconds.
NERVOUS HEAD-ACHE,	In fifteen minutes.
SOUR STOMACH,	In five minutes.
HEART-BURN,	In five minutes.
BOWEL COMPLAINTS,	In thirty-five minutes
CRAMPS and SPRAINS,	In twenty-five min's.
DIARRHŒA,	In one hour.
INFLAMATION of the BOWELS	In thirty minutes.
LOCAL INFLAMATIONS	In ten minutes.
INFLUENZA,	In twelve hours.
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.
HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with Radway's Ready Relief. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent, at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is no surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief."

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours.—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system in a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflamation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

THE GREAT REMEDY
FOR
PILES, HABITUAL COSTIVENESS,

FEMALE COMPLAINTS,
Nervous Debility,
DYSPEPSIA,
OR
Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS:

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

RENOVATES THE BLOOD,

allays NERVOUS EXCITEMENT, and reanimates the

Whole Body with New Life.

Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

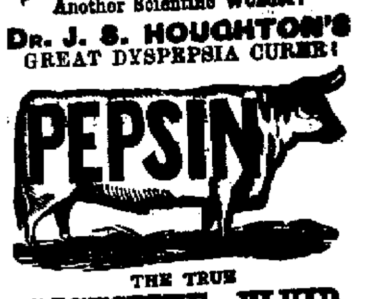
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ **Observe this.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

We would respectfully call the attention of our many friends, and the public generally, to an Instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
